

PSK-HANDBOOK 1

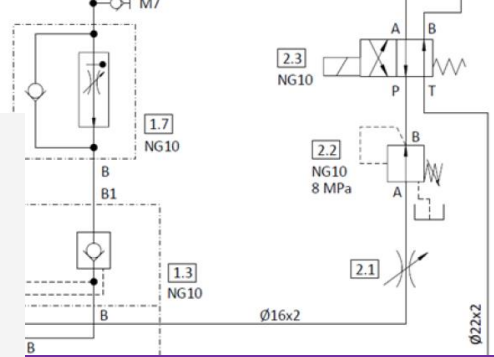

DESIGN AND PROCUREMENT OF INDUSTRIAL HYDRAULIC SYSTEMS

The handbook provides guidelines for the design, procurement and maintenance of industrial hydraulics.

The 5th edition of this handbook contains 11 PSK Standards Association standards for industrial hydraulic systems.

Handbook 1 consists of the standards prepared by PSK Standards Association (PSK Standardisointi) dealing with industrial hydraulics technology, materials, design, procurement, installation, commissioning and maintenance.

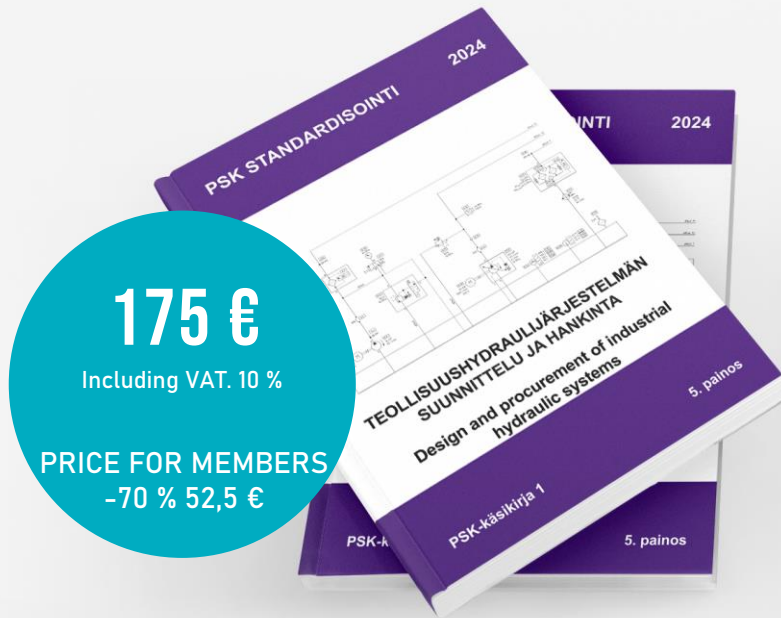

The handbook is bilingual (Finnish and English).

PSK Standards Association workgroup

PSK 67/5

The standards for the book have been prepared by the PSK Standards Association workgroup, which has represented experts in the fields of equipment and component manufacturers, design, installation as well as operation and maintenance.
